

# BIODIVERSITY ACTION PLAN 2022 - 2023

NO	ACTION	DATE	STATUS
1	Conduction the orang utan impact assessment study	25 February, 2022	Completed
2	Establish a biodiversity data room to collate and review all data relating to the Tapanuli orang utan	25 February, 2022	Completed
3	Conducting habitat mapping study	30 June, 2022	Completed
4	Conducting biodiversity offset feasibility study	31 July, 2022	In Progress
5	Establish Standard Operating Procedure (SOP) for the standard list of species for site stabilisation and rehabilitation	30 September, 2022	In Progress
6	Establish a standard methodology for implementing site fauna and flora surveys	31 October, 2022	In Progress
7	Establish Geographic Information System (GIS) database for biodiversity data	31 October, 2022	Pending
8	Conduct biodiversity workshop to discuss technical content	30 November, 2022	In Progress
9	Conduct biodiversity workshop to coordinate	30 November, 2022	In Progress
10	Conduct site orang utan survey	31 December, 2022	Completed
11	Conduct first phase of soil mycorrhiza study	30 June, 2022	In Progress
12	Evaluation of use of drones for orang utan survey	30 September, 2022	Pending
13	Conduct biodiversity stakeholder mapping	25 February, 2022	Completed
14	Implement support for NGO YEL	February 2023	Done
15	Biodiversity offset feasibility study stage II	June 2023	Done
16	Finalise preliminary mycorrhiza study	June 2023	Done
17	Mid-year biodiversity workshop – arrangements	June 2023	Done
18	Mid-year biodiversity workshop – technical content	June 2023	Done
19	Forest research station – scoping	July 2023	Current
20	Standard methodology for implementing site fauna and flora surveys	September 2023	Current
21	Forest research station - implementation plan	October 2023	Current
22	GIS database for biodiversity survey data	December 2023	Current
23	Standard list of species for site stabilisation and rehabilitation	December 2023	Current
24	Evaluation of the use of drones for orang utan surveys	December 2023	Current
25	Site orang utan survey	December 2023	Done
26	End-year biodiversity workshop – arrangements	December 2023	Current
27	End-year biodiversity workshop – technical content	December 2023	Current
28	Martabe Biodiversity Reserve	December 2023	Current
29	Biodiversity offset feasibility study stage III	January 2024	Current
